Cross Section
B

1. The position of the apparatus shown on this drawing is believed to be correct but the original landmarks may have been altered since the apparatus was installed.
2. The exact position of the apparatus should be verified - use approved cable avoidance tools prior to excavation using suitable hand tools.
3. It is essential that trial holes are carefully made avoiding the use of mechanical tools or picks until the exact location of all the cables have been determined.
4. It must be assumed that there is a service cable into each property, lamp column and street sign, etc.
5. All cables must be treated as being live unless proved otherwise by UK Power Networks.
6. The information proved must be given to all people working near UK Power Networks plant and equipment. Do not use plans more than 3 months after the issue date for excavation purposes.
7. Please be aware that electric cables/lines belonging to other owners of licensed electricity distribution systems may be present and it is your responsibility to identify their location.

1. UK Power Networks does not warrant that the information provided to you is correct. You rely upon it at your own risk.
2. UK Power Networks does not exclude or limit its liability if it causes the death of any persons or causes personal injury to a person.
3. Subject to paragraph 2 UK Power Networks has no liability to you in contract, in tort (including negligence), for breach of statutory duty or otherwise for any loss, damage, cost, claims, demands, or expenses that you or any third party may suffer or incur as a result of using the information provided whether for physical damage to property or for any economic loss (including without limitation loss of profit, loss of opportunity, loss of savings, loss of goodwill, loss of business, loss of use) or any special or consequential loss or damage whatsoever.
4. This plan has been provided to you on the basis of the terms of use set out in the covering letter that accompanies this plan. If you do not accept and/or do not understand the terms of use set out in the covering letter you must not use the plan and must return it to the sender of the letter.
5. You are responsible for the security of the information provided to you. It must not be given, sold or made available upon payment of a fee to a third party.

URGENTLY

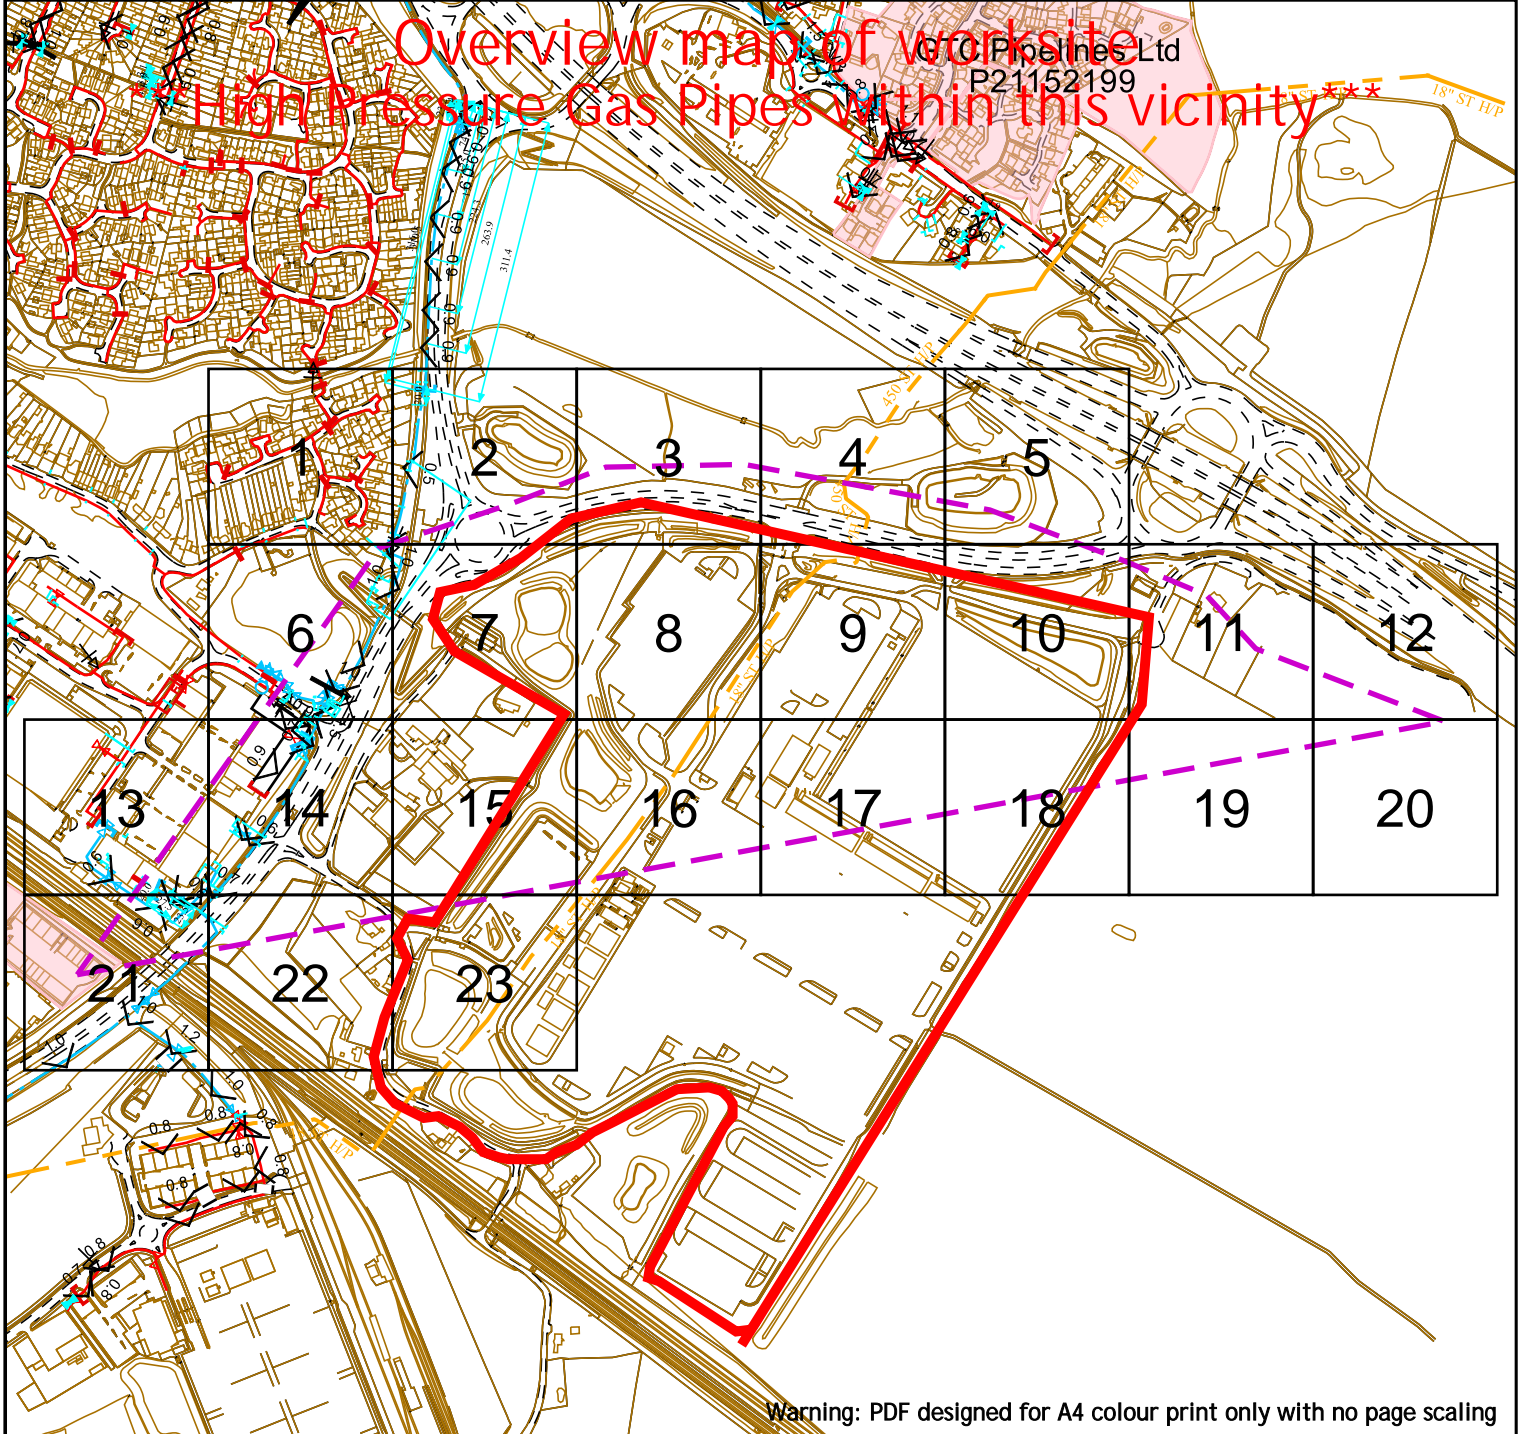

ALWAYS LOOK UP BEFORE
YOU START WORK
Refer to HSE Guidance note GS6

Maps produced at 1:2500 scale are Geo-Schematics which show LV mains cables and overhead lines (in some cases all voltages). Prior to carrying out excavations you must refer to the 1:500 records to determine the location of all known underground plant and equipment.

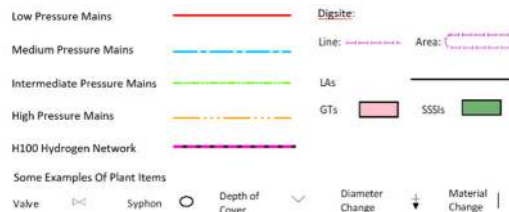

4. SGN

The following site utility layouts have been directly obtained from Groundwise Searches Ltd which depicts the present gas utilities within the vicinity of the IBC site boundary.

Do not proceed until spoken with the asset owner. SGN have a high-risk asset in the vicinity of these proposed works. In order to evaluate the impact of your works on our asset please could you provide further details of your work to plantlocation@sgn.co.uk or [08009121722](tel:08009121722). Please note that until we receive this information and have replied back to you, no works should occur within the vicinity of the pipeline. The pipeline is of prime importance to the gas supplies of this area.

This information is given as a guide only and its accuracy cannot be guaranteed.

This plan shows the location of those pipes owned by Scotia Gas Networks (SGN) by virtue of being a licensed Gas Transporter (GT). Gas pipes owned by other GTs or third parties may also be present in this area but are not shown on this plan. Information with regard to such pipes should be obtained from the relevant owners. No warranties are given with regard to the accuracy of the information shown on this plan. Service pipes, valves, siphons, sub-connections etc. are not shown but their presence should be anticipated. You should be aware that a small percentage of our pipes/assets may be undergoing review and will temporarily be highlighted in yellow. If your proposed works are close to one of these pipes, you should contact the SGN Safety Admin Team on 0800 912 1722 for advice. No liability of any kind whatsoever is accepted by SGN or its agents, servants or sub-contractors for any error or omission contained herein. Safe digging practices, in accordance with HS (G)47, must be used to verify and establish the actual position of mains, pipes, services and other apparatus on site before any mechanical plant is used. It is your responsibility to ensure that plant location information is provided to all persons (whether direct labour or sub-contractors) working for you on or near gas apparatus. Information included on this plan should not be referred to beyond a period of 28 days from the date of issue.

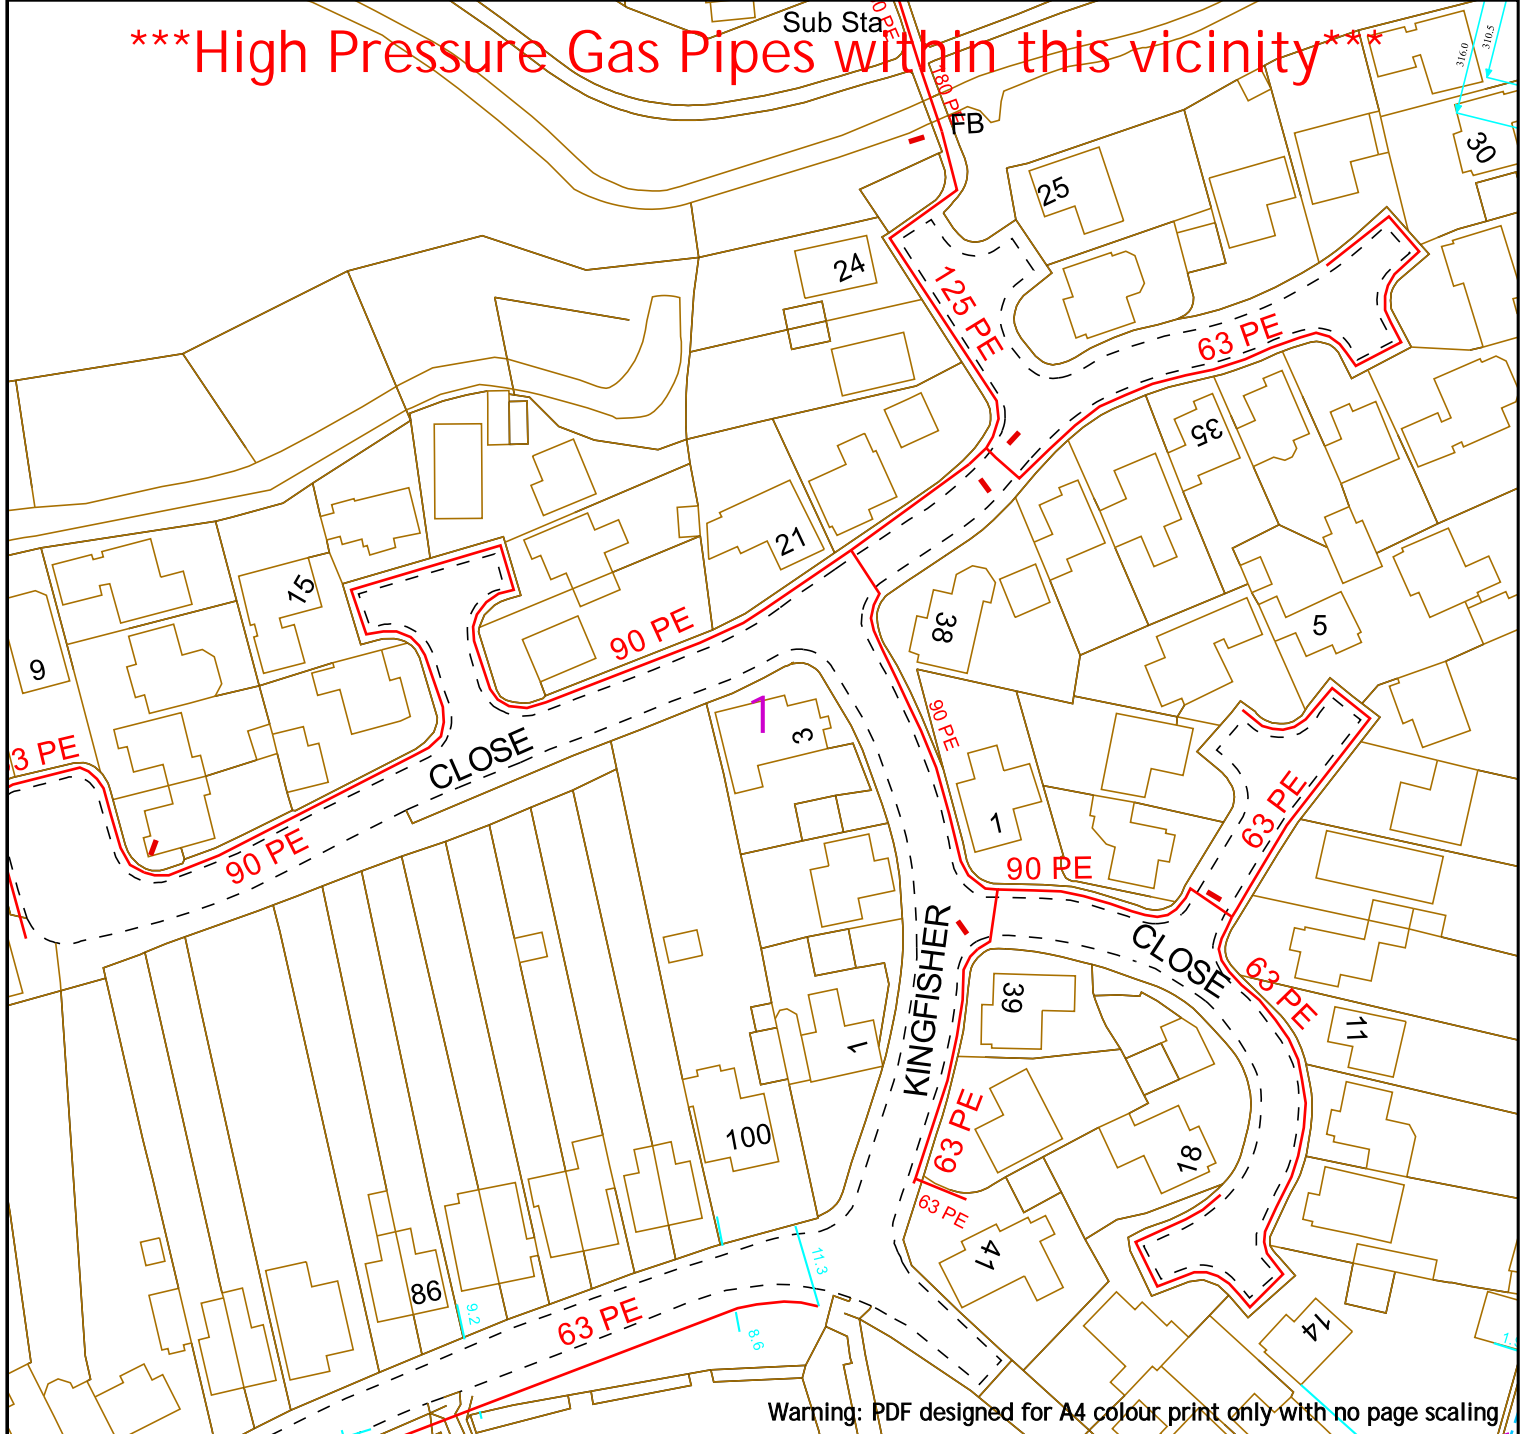

Report damage immediately – KEEP EVERYONE AWAY FROM THE AREA

The map displays a complex network of gas pipes overlaid on a street map. Key features include:

- Pipe Networks:**
 - A red solid line labeled "125 PE" runs diagonally across the upper left.
 - Cyan dashed lines labeled "63 PE MP" form a loop at the bottom left.
 - A purple dashed line runs along the right edge of the map.
- Infrastructure:**
 - "Sub Sta" labels are located near the top center and bottom center.
 - An "FS" (Fire Station) label is on the left side.
 - "Ashford Retail Park" is labeled in large black text on the right.
- Other Labels:**
 - A purple number "13" is in the center.
 - A box containing the number "624010189" points to a specific location on the cyan pipe network.
 - Various numerical values (e.g., 17.5, 13.5, 38.0, 8.0, 15.0) are placed along the pipe segments, likely representing distances or pressures.
- Warning:** A note at the bottom right states: "Warning: PDF designed for A4 colour print only with no page scaling".

Do not proceed until spoken with the asset owner. SGN have a high-risk asset in the vicinity of these proposed works. In order to evaluate the impact of your works on our asset please could you provide further details of your work to plantlocation@sgn.co.uk or 800111999. Please note that until we receive this information and have replied back to you, no works should occur within the vicinity of the pipeline. The pipeline is of prime importance to the gas supplies of this area.

This plan shows the location of those pipes owned by Scotia Gas Networks (SGN) by virtue of being a licensed Gas Transporter (GT). Gas pipes owned by other GTs or third parties may also be present in this area but are not shown on this plan. Information with regard to such pipes should be obtained from the relevant owners. No warranties are given with regard to the accuracy of the information shown on this plan. Service pipes, valves, siphons, sub-connections etc. are not shown but their presence should be anticipated. You should be aware that a small percentage of our pipes/assets may be undergoing review and will temporarily be highlighted in yellow. If your proposed works are close to one of these pipes, you should contact the SGN Safety Admin Team on 0800 912 1722 for advice. No liability of any kind whatsoever is accepted by SGN or its agents, servants or sub-contractors for any error or omission contained herein. Safe digging practices, in accordance with HS (G)47, must be used to verify and establish the actual position of mains, pipes, services and other apparatus on site before any mechanical plant is used. It is your responsibility to ensure that plant location information is provided to all persons (whether direct labour or sub-contractors) working for you on or near gas apparatus. Information included on this plan should not be referred to beyond a period of 28 days from the date of issue.

Report damage immediately – KEEP EVERYONE AWAY FROM THE AREA

7. HSE

The following site utility layouts have been directly obtained from Groundwise Searches Ltd which depicts the present utilities within the vicinity of the IBC site boundary that require HSE to be involved.

Suite 6, Princess Caroline House, 1 High Street, Southend on Sea, Essex, SS1 1JE

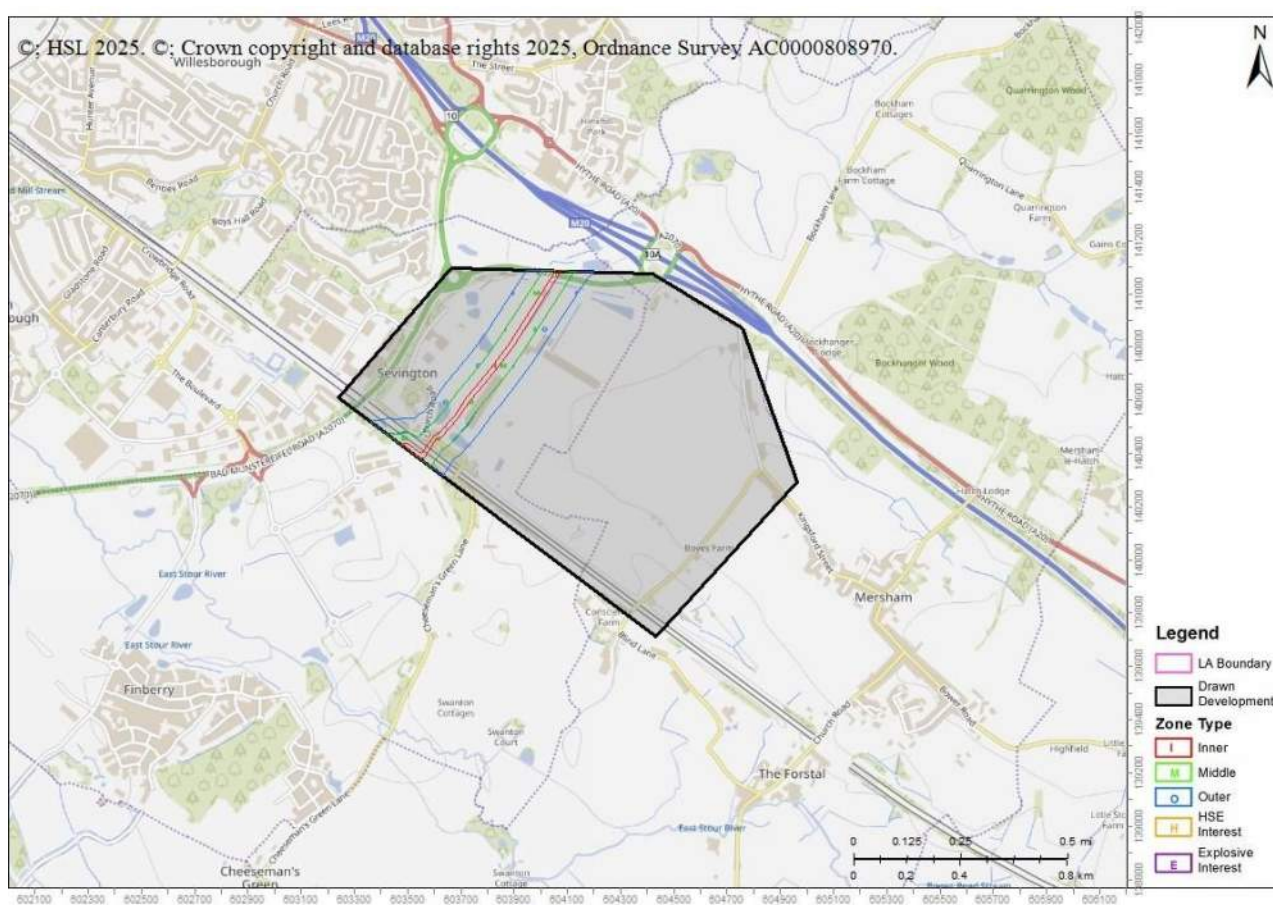

Advice : HSL-250214122614-963 Crosses Consultation Zone

Please enter further details about the proposed development by continuing with the enquiry on the HSE's Planning Advice Web App from the Previous Enquiries tab either now or at a later time, unless the Web App has stopped the process and notified you to contact HSE.

Your Ref: 37047DM-GWS

Development Name: Land at A2070, Ashford, TN25 6GE

Comments: STUDY

The proposed development site which you have identified currently lies within the consultation distance (CD) of at least one major hazard site and/or major accident hazard pipeline; HSE needs to be consulted on any developments on this site.

This advice report has been generated using information supplied by Debbie Miller at Groundwise Searches Ltd on 14 February 2025.

You will also need to contact the pipeline operator as they may have additional constraints on development near their pipeline.

- 7110_1381 Southern Gas Networks

HSL/HSE accepts no liability for the accuracy of the pipeline routing data received from a 3rd party. HSE/HSL

also accepts no liability if you do not consult with the pipeline operator.

You may wish to contact HSE's Planning Advice team to discuss the above enquiry result on 0203 028 3708 or by email at lupenquiries@hse.gov.uk.

8. South East water

The following site utility layouts have been directly obtained from Groundwise Searches Ltd which depicts the present water utilities within the vicinity of the IBC site boundary.

9. Southern Water

The following site utility layouts have been directly obtained from Groundwise Searches Ltd which depicts the present drainage utilities within the vicinity of the IBC site boundary.

We are Waterman, where every project matters

We deliver progressive, sustainability-driven environmental and engineering consultancy services across every sector. We think differently, and we're harnessing our collective expertise to deliver greener, healthier and well-connected communities, networks and built environments.

Based in strategic locations throughout the UK and Ireland, our team of specialists is at the forefront of tackling the climate emergency and forging a path to a Net Zero built environment.
